CONSCIOUSNESS
THE
PARANORMAL
AND THE
CONTACT
MODALITIES

This documentary features leading academic physicists, astrophysicists, neuroscientists, psychiatrists and Experiencers discussing not only the nature of our reality, what is Consciousness, but more significantly, what are the possible theories that might explain the relationship between Consciousness, the Paranormal and the Contact Modalities.

A GREATER REALITY: *ONE MAN'S JOURNEY OF DISCOVERY*

Experiencer Rey Hernandez converses with leading physicists and scientists, cutting edge researchers and Experiencers on the nature of reality concluding that we live in a universe that is alive and interconnected.

REINERIO (REY) HERNANDEZ

Reinerio (Rey) Hernandez works as an Estate Tax Attorney for the US Dept of Treasury.

In March of 2012, Rey and his family began to have conscious physical contact with non-human intelligence in their home, as well as a series of paranormal experiences including seeing large UAPs.

Rey now dedicates an extensive part of his life to research and understanding the nature of reality.

ONE MAN'S JOURNEY OF DISCOVERY

Rey first experienced conscious physical contact with non-human intelligence at his home when an Energy Being appeared on March 4, 2012.

ONE MAN'S JOURNEY OF DISCOVERY

What followed was a series of paranormal experiences.

In one instance, a football stadium-sized UAP only 30 feet from Rey, his daughter, and 3 other witnesses, hovered over them in silence for more than 45 minutes.

ONE MAN'S JOURNEY OF DISCOVERY

Rey's most profound experience occurred when he found himself transported to another reality while driving on the highway.

While there, he appeared inside what appeared to be a huge cartwheel, where inside each spoke was a different paranormal phenomenon, what he now calls the "Contact Modalities." He was given a "download" that all of these experiences are interconnected and that "Consciousness" is what unites them.

ONE MAN'S JOURNEY OF DISCOVERY

While in that alternate reality Rey was given a mission:

You must inform humanity of the relationship between Consciousness, (the nature of our Greater Reality) the Spirit World, (that we are eternal spiritual beings) and Us (God, or the Universal One Mind.)

INTRODUCE SCIENCE AND PHYSICS TO THE TOPIC OF CONTACT WITH NON-HUMAN INTELLIGENCE

There have been many previous scientific documentaries that have discussed the topic of Consciousness and even Parapsychology. The documentary “What the Bleep” is a prime example. But none of these documentaries have combined discussions on the Science and Physics of Consciousness and Parapsychology with the topic of contact with Non-Human Intelligence via the unified Contact Modalities. This was the missing link.

CONSCIOUSNESS AND CONTACT RESEARCH INSTITUTE (CCRI)

Mission

To explore the relationship between Consciousness, our Cosmology, and Contact with Non-Human Intelligence via the Contact Modalities.

CCRI is comprised of 20 Ph.D. academics and medical doctors in the fields of Astrophysics, Philosophy, Theoretical Physics, Psychiatry, Neuroscience, Sociology, Quantum Biology, Information Sciences and other researchers of PSI, Consciousness and the Paranormal Contact Modalities.

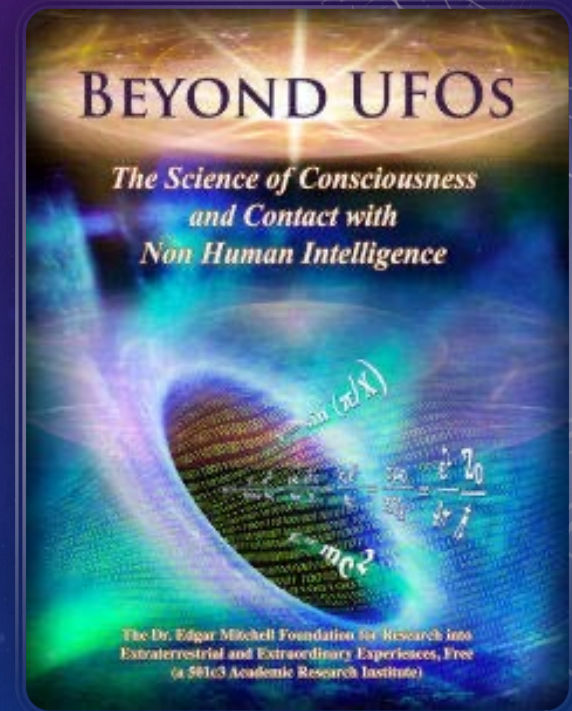

Rey Hernandez serves as the Chair, the other co-chairs of CCRI are Harvard Astrophysicist Dr. Rudy Schild and noted NDE researcher, Dr. Jeffrey Long, MD.

Rey is one of the four co-founders of **The Dr. Edgar Mitchell FREE Foundation (FREE)**, a 501c3 academic research institute that recently completed a 5-year comprehensive academic research study on UFO Contact Experiencers.

BEYOND UFO'S: THE SCIENCE OF CONSCIOUSNESS AND CONTACT WITH NON-HUMAN INTELLIGENCE

- 820 book detailing the research findings from the FREE UFO Contact Experienter Research Study
- Co-Authored by three retired university academic professors
